OBJECTIVE

To secure a challenging role where I can leverage six months of hands-on experience as a Full Stack Developer and utilize my proficiency in JavaScript, React.js, Next.js, and database management (MongoDB, PostgreSQL) to contribute effectively to innovative web development projects and grow with a dynamic team.

TECHNICAL SKILLS

| Front-End | JavaScript, React.js, Next.js, TypeScript, Tailwind CSS, Shadcn UI |

| Back-End/Database | Node.js, MongoDB, PostgreSQL |

| Tools & Cloud | Cloudinary, Git, Vercel |

| Programming/Other | OOP (Object-Oriented Programming), Java, Zod, React Hook Form |

PROFESSIONAL EXPERIENCE

Full Stack Developer, Al-Mawa International (May 2025 – Present)

- Spearheaded the development and deployment of a complete, full-stack web application, establishing the company's online presence.
- Engineered a secure Admin Panel using JWT authentication with Login and Sign-Up functionalities.
- Designed and implemented service sections (Web Design, Web Development, Real Estate, Legal and Tax).
- Developed a dynamic Career Page with job listings and integrated application forms to streamline recruitment.
- Integrated Contact and Enquiry Forms with Nodemailer for automated email notifications.
- Built and deployed two complete CRM systems using MERN stack, Next.js, and Shadcn UI.
- Key Technologies: React.js, Next.js, Tailwind CSS, Shadcn UI, MongoDB, PostgreSQL.

PROJECTS

- Al-Mawa International Web Platform – Comprehensive service platform built from scratch featuring secure Admin Tools for dynamic content management and real-time handling of job applications and service inquiries.
- CRM Systems (2 Projects) – Designed and developed robust CRM solutions using MERN stack with Next.js and Shadcn UI for managing clients, leads, and operations.
- College Event Management – Web app for event creation, registration, and management using MERN stack + Next.js + TypeScript + Zod + React Hook Form.
