Work Experience

Full Stack Developer, Al-Mawa International

05/2025 – 03/2026 | Pune

- Developed and maintained full-stack web applications using **Next.js, TypeScript, Node.js, Express.js, MongoDB, and React.js**.
- Built responsive, SEO-friendly, and user-centric interfaces, improving application performance and user experience.
- Designed and integrated **RESTful APIs**, authentication systems, and role-based access control (RBAC) for secure application management.
- Worked with **MongoDB and PostgreSQL** for database design, optimization, and efficient data handling.
- Collaborated with cross-functional teams to deliver scalable features, resolve bugs, and support deployment and maintenance activities.

Professional Projects

Nitin Hardware (via Al-Mawa International), Full Stack Developer

- Developed a production-ready business website using Next.js, with a strong focus on performance, SEO optimization, and responsive design.
- Implemented dynamic content rendering and optimized page load times to enhance user experience and application performance.
- Deployed and maintained the application on Vercel, including custom domain configuration and production environment management.

Lifestyle Home Decor (via Al-Mawa International), Full Stack Developer

- Built a modern, responsive marketing website using Next.js and Tailwind CSS aligned with client branding.
- Created reusable UI components to improve code maintainability, consistency, and scalability.
- Managed deployment and ensured stable production releases on the server.

Personal Projects

Personal Portfolio Website [🔗](#), Full Stack Developer

- Built a full-stack portfolio website using **Next.js, TypeScript, Node.js, and MongoDB**.
- Implemented dynamic project and content management with a responsive UI.
- Deployed the application on **Vercel** with performance and SEO optimization.

College Management System [🔗](#), Full Stack Developer

- Developed a full-stack College Management System to manage students, courses, and academic records through a centralized dashboard.
- Implemented secure authentication, role-based access control, and RESTful APIs using Node.js, TypeScript, and MongoDB.
- Built and deployed the application on **Vercel**, ensuring responsive design, optimized performance, and seamless user experience.
